

## It's Not Those Special Days

c Bev Zizzy

It's not those special days that get me  
Birthdays and holidays don't bring me the blues, no no  
I can take anniversaries, darlin',  
Cause I laugh and celebrate and think about you

It's all those days in between, when I long for your smile  
To help me make it through the next little while  
It's all those days in between, when I long for your touch  
Cause I been missin' you so damn much  
Its all those days in between, it's all those days in between

It's not those special days that get me  
Birthdays and holidays don't bring me the blues  
I can take anniversaries darlin'  
Cause I laugh and celebrate and I'm thankful for you

It's all those days in between when I need you to walk through that door  
And echo the laughter that we'd shared before  
It's all those days in between when I'm struggling to survive  
Cause the hole in my heart that you left me with still bleeds inside  
It's all those days in between. It's all those days in between.  
It's all those days in between.
