

BEV ZIZZY WOMAN IN BLACK

An eclectic mix of pop, blues, roots and soul, **Bev Zizzy Woman in Black** remains **timeless** in its artistic production, design (JUNO Nominee, Jared Robinson) and delivery of **powerful lyrics** that resonate deeply long after the music ends.

Bev Zizzy Woman in Black

– fourteen **original** tracks of philosophical reflection – is driven by a **passion** to share real life experiences; written with the eloquence that comes with a **Master's Degree in Literacy** and years of instruction in **Creative Writing**; and delivered with **natural born vocals** enhanced by experimentation in a variety of genres, but that always come home to **jazz and acoustic blues**; revealing **profound lyrics** inspired by life, loss, growth, and deep compassion. Dedicated to the memory of my daughter, Tesalyn Zizzy-Mustatia, who died unexpectedly at the age of eighteen, some of the album tracks testify to the power of writing to help process, move through, and beyond tragedy, while others indulge in humorous story telling; but all show an immense appreciation for life and a relentless determination to win back stolen smiles.
